

CLOSED-CIRCUIT TELEVISION SYSTEM (CCTV)

QUALITY AREA 7

PURPOSE

The purpose of this policy is to establish a clear, lawful, and ethical framework for the use of Closed-Circuit Television (CCTV) at Barry Beckett Children’s Centre. This policy ensures that any implementation of surveillance supports the safety, wellbeing, and security of children, educators, families, and visitors while upholding the fundamental rights to dignity, privacy, and respectful care.

POLICY STATEMENT

VALUES

Barry Beckett Children’s Centre uses CCTV to support the safety and wellbeing of all children, families, staff, and visitors. The use of surveillance is lawful, proportionate, and transparent, and is guided by child safe principles, applicable privacy laws, and the Education and Care Services National Law and Regulations.

The service complies with all relevant legal obligations, including the *Privacy Act 1988 (Cth)*, *Australian Privacy Principles*, *Surveillance Devices Act 1999 (Vic)* or applicable state legislation, and the Education and Care Services National Law and Regulations.

CCTV is used at Barry Beckett Children’s Centre to support physical security and assist in responding to incidents, such as damage to the centre, theft, and unlawful entry into the service. Families and staff are informed about the use, purpose, and access arrangements for CCTV. All footage is managed and stored securely in accordance with strict privacy and security protocols to protect the dignity and rights of individuals.

CCTV is a supplementary safety measure and does not replace the need for active supervision, meaningful educator-child engagement, or robust governance practices. The professional judgment of educators and the relational quality of care remain central to the operation of the service.

CCTV LOCATIONS

CCTV cameras are installed in the following locations at Barry Beckett Children's Centre: Outside the front door (in the front courtyard area), in the foyer area (directed down the hallway), at the end of the hallway (directed up the hallway towards the foyer area), on the decking area outside Wurru wurru Biik / Tharangalk Biik, and in the veranda area outside Biik-ut. The two cameras that are located in spaces that children access in the course of their play only operate between 6pm and 7am on days that children attend the service. The other three cameras operate in 'real mode', monitoring the site continuously 24 hours a day. .

Cameras will not be installed in any area where privacy is expected, including bathrooms, nappy change areas, sleep rooms, staff-only spaces, or prayer and breastfeeding areas. All cameras will be clearly visible and accompanied by appropriate signage.

USE, ACCESS AND REVIEW OF FOOTAGE

Access to the recordings will only be disclosed: 1. in accordance with legal obligations, e.g. investigations into criminal conduct, abuse, neglect and ill treatment.; and/or 2. by the Approved Provider, Nominated Supervisor/Responsible Person on duty to investigate situations that may have occurred

CCTV footage is the property of Barry Beckett Children's Centre and is managed in accordance with relevant privacy, surveillance, and child safety laws. Access to footage is restricted to authorised personnel and may occur where it is necessary to support the health, safety, and wellbeing of children, staff, or visitors, or to comply with legal, regulatory, or internal investigative requirements. All access must be justified, time-limited, and recorded in an internal access log.

Authorised personnel (*see Definitions*) may approve access by third parties only where legally required or where it aligns with privacy and confidentiality obligations. In circumstances where an individual requests access to footage, such requests must be made in writing and will be considered based on applicable legislation, relevance to the individual, and whether de-identification of others is reasonably achievable.

Unauthorised access, reproduction, distribution, or mobile recording of footage is strictly prohibited. Any breach of these conditions may lead to disciplinary action and be reportable under relevant law or regulation.

STORAGE, SECURITY AND RETENTION

CCTV footage is stored in a secure encrypted system, with access limited to a small number of trained, authorised users. Strong password protection and regular system audits are used to prevent unauthorised access, modification, or loss.

Footage and information is usually kept by Barry Beckett Children's Centre for a period of 4 weeks. It may be kept longer if considered appropriate by the approved provider or nominated supervisor. After this period, data is securely deleted or overwritten. Any incident footage that may be required for legal proceedings is downloaded securely, labelled with restricted access, and stored separately.

System maintenance and updates are conducted regularly. All faults, unauthorised access attempts, or data integrity concerns are reported immediately to the approved provider.

CONSENT, NOTIFICATION AND COMMUNICATION

All families are notified of CCTV use at the time of enrolment. Staff, contractors, and students are informed at induction. The presence and locations of cameras are clearly signposted.

In accordance with Victorian surveillance law and other applicable state-based frameworks, written notification will be provided at least 14 days in advance before the introduction of any new surveillance equipment or changes to existing placement.

This policy and associated information constitute the formal written notice of surveillance. Consent forms are included in enrolment and staff documentation.
